

LIBERO Concierge upgrade boxes are a little bit of luxury for passengers closer to the aft...

Emily is delighted *“How marvellous! I did ask him if he wanted to pre order... He wouldn’t splash out on the posh seats, so I decided I am having lobster!”*

Harold looks on with food envy *“Its fine, who doesn’t love grapefruit?”*. Looks like he is regretting his decision...

Our unique upgrade boxes are fully biodegradable, tamper-evident and designed to be held in the freezer.

The main meal can be removed and placed in the oven.

The heated meal box then inserts at the side for the cabin crew to hand to the passenger.

The box has a tear strip for the passenger to open at the front, making it easier to eat.
